Track Train, making figure eight. Special at 98c

SAYS CUBA FACES ALARMING CRISIS

New York Paper Hears of Trouble Brewing.

New York, Dec. 22.—The World prints this morning:

"Washington, Dec. 21.—Troops of the United States army are in readiness to be rushed to Cuba to maintain peace and protect American and other foreign interests.

"Officials of the War Department look for a crisis in the affairs of the island by February.

"Officials of the State and War departments have been kept in close touch with affairs in Cuba ever since the evacuation of American troops less than three years ago. Within the last six months reports and information received from American representatives in the island have indicated that the Cuban government was not substantial and could exist but a few months longer. Within the last three weeks the reports have been so discouraging that the War Department has felt the necessity of keeping 5,000 troops within a thirty-six-hour embarkation point.

"When Secretary of War Dickinson and Brig. Gen. Clarence R. Edwards, chief of the Bureau of Insular Affairs of the War Department, visited Cuba in November this year they were startled and amazed by the disrupted condition and corruption which they found existing there.

"According to reports in the War and State departments it has been the practice of the United States to protect President in Cuba, Jose Miguel Gomez, that was led to the undoing of all that Gen. Leonard, President Taft, and Gov. Macgown did to put the government on a substantial basis.

"These reports state that many measures have been carried through the Cuban legislature for the benefit of special interests. The United Railways paid \$200,000 for the acquisition of the arsenal water front property in exchange for the railroad terminal."

FOUR MEN KILLED IN FACTORY FIRE

Continued from Page One.

was begun to thaw out the other plugs, lines of hose were attached to the two that were serviceable, and two streams began to play upon the flames.

In an incredibly short time the entire front of the factory was ablaze, and fed by the contents of the building, the flames spread from story to story to finally burst through the roof and shoot up a hundred feet in the air.

Renumbered from the water that was blown back upon them by the high wind, and caked them in ice as it fell, the firemen struggled stubbornly to conquer the flames, while dozens of families deserted their homes in Bodine street, dragging furniture and Christmas trees with them.

Without sufficient water the firemen were powerless, however, and the factory was rapidly gutted.

Firemen Enter Building.

When the flames had begun to die down of their own accord ladders were placed against the Bodine street wall of the building, which had now been entirely gutted, and lines of hose were dragged up by willing hands. A score or more of firemen entered the burning ruins and other streams were turned on the blazing pile.

It Was 10-50 o'clock when, without any warning, the Bodine street wall swayed, toppled, and fell with a crash that could be heard for squares. With the wall went the ladders and their human freight. Part of the wall crashed into the street, the rest into the building.

MASKED BALL ARRANGED.

Auxiliary of Caledonian Club Holds Election of Officers.

The auxiliary of the Caledonian Club held its annual election of officers and made arrangements for a euchre in January and a masquerade ball in February at its regular meeting, held at Eagles' Hall, last night.

The officers elected for the ensuing year are Mrs. Alexander Robertson, president; Mrs. O'Brien, secretary; Mrs. John D. Higgins, treasurer; Mrs. John Robertson, chaplain.

The committee on the masquerade ball is composed of Mrs. J. O'Brien, Mrs. John D. Higgins, and Miss L. Bruce.

CALLS LETTERS FORGERIES

Mrs. Turnbull Testifies in "Lucky" Baldwin Suit.

Mother of Plaintiff on Stand All Day and Causes Sensations in Courtroom.

Los Angeles, Dec. 21.—Mrs. Lillian Ashley Turnbull was under cross-examination all day in the suit of her seven-year-old daughter Anita to recover \$250,000 from "Lucky" Baldwin's estate. The defense made her admit that Baldwin never introduced her as his wife, except to negro servants.

Many of her old letters were submitted, but most of them she declared were forgeries or had passages interpolated in them. Detective James R. Wood, who had been against her in her suit for seduction against Baldwin years ago, was present, and when he was asked to stand up, she recognized him, and declared he was "the wickedest man I ever knew."

The letters presented were supposed to have been burned in San Francisco, but in reality they were sent East and kept in Boston. If the defense can establish their genuineness, then Mrs. Turnbull's suit will go to pieces.

Mrs. Turnbull was questioned minutely in regard to her first Western trip and her contract marriage with Baldwin. Lawyer McNab endeavored to show that any woman in her place would have made inquiries about Baldwin and would have insisted on some kind of marriage, but she replied that Baldwin was very persuasive, and she accepted his statement that a contract marriage was legal.

FLYER IS WRECKED.

Dozen Injured in Smash of New York Train in Chicago.

Chicago, Dec. 21.—More than a dozen persons were injured, one perhaps fatally, and scores narrowly escaped being hurt this morning in a collision between the Manhattan Flyer on the Pennsylvania Railroad, bound for New York, and a switching locomotive on the elevation at West Fifty-seventh street and the Pennsylvania tracks.

The locomotive of the flyer crashed against a protecting girder and the boiler exploded, setting fire to the baggage car and the mail coach.

MANUEL TO STUDY.

Former King Will Fit Himself for Active Life.

London, Dec. 21.—Ex-King Manuel does not think of abandoning his sovereignty in Portugal, but is content to bide his time before reclaiming his throne. He is resolved, according to a statement published in the Daily Mail, to spend the interval in fitting himself for the duties of an enlightened sovereign. He will leave Wood Norton, the residence of the Duke of Orleans, where he has been a guest since his arrival in England, next month and reside at a house taken for him at Richmond, Surrey.

He will attend lectures at Oxford University and other centers of learning as an ordinary student, but without seeking a degree. When he completed his lecture course, he will make a tour of the world, especially studying British colonial methods. His tour will include the United States, where, as elsewhere, he will travel purely as a student of administrative affairs.

He does not wish to be fettered or entertained. He will travel on ordinary trains and steamships as a private citizen. At the end of his tour he will return to England, where he will decide on his future movements.

GROWTH ON HAND REMOVED. Operation on Senator Aldrich at Roosevelt Hospital a Success.

New York, Dec. 21.—An operation was performed on the left hand of Senator Nelson W. Aldrich, of Rhode Island, at Roosevelt Hospital to-day, and a growth which has been causing a numbness there was removed. It was reported that the operation which was performed by Dr. George Brewer was entirely successful, although the Senator will stay at the hospital for two or three days to recover from the shock.

The growth, which is small, appeared following an encounter the Senator had with a surface car on October 25 last. In attempting to avoid a taxicab the Senator was thrown against a trolley car and knocked about a bit. He was slightly cut and shaken up, but was able to walk home.

The operation to-day was originally planned for the morning, and the Senator's son, Winthrop, whom he has been visiting, and Mrs. Aldrich were at the hospital. It was postponed until the afternoon and they were unable to be present, owing to engagements previously made.

Will Talk on China. Dr. A. H. Smith to Lecture at Mount Pleasant Congregational Church.

Dr. Arthur H. Smith, of China, who, on Monday evening, gave an interesting talk on China before the Congregational Club, will deliver an address on "The religious, economic, and political awakening of the Chinese empire" at the Mount Pleasant Congregational Church, Fourteenth street and Columbia road northwest, at 8 o'clock this evening.

Dr. Smith has spent many years as a missionary in China and has made a thorough study of the subjects upon which he is to speak.

Woolens Stolen in Chicago Strike. Chicago, Dec. 21.—Five thousand dollars' worth of woolens waiting to be delivered to nonunion tailor shops were stolen to-day from the Hirsch & Wickmire Company, whose garment workers are on strike. The goods had been loaded on a wagon and were in a barn ready for immediate delivery to be made up into clothing. Shortly afterward, however, it was discovered that the place had been broken into and the goods carted away.

Tetrazzini to Be Heard by 20,000 at San Francisco. San Francisco, Dec. 21.—Tetrazzini, the prima donna who had such a hard fight with Hammerstein to secure the privilege of singing in concert in "Frisco, has decided to sing in the street here on Christmas Eve. A stand will be erected at Lottas Fountain, and to the accompaniment of an orchestra, the diva will sing a number of songs. All street cars will stop for a half hour, and the singer will be assured of the largest audience that ever gathered to hear her, as 20,000 people can stand within sound of her voice.

Tetrazzini has crowded houses at all her concerts here, and has been given great ovations. She said to-night: "My return to San Francisco has been so happy and I am so fond of memories connected with San Francisco that I wish to show my appreciation. It is for this reason that I will sing. Singing in San Francisco, even in the street, will be just like singing at home to me."

THE WASHINGTON HERALD OPTIMIST CLUB

The subject for the page of optimism for Sunday, January 1, which I have chosen, fits, I think, this season of the year. Expressed in two words, the topic on which I invite contributions is

ON SOCIABILITY

The ease with which the gospel of optimism is spreading in these days is not the expression of a new phenomenon by any means; it is but the springing into active life of an evolutionary tendency in human society, a tendency toward sociability, a trend toward human solidarity. Leaders of thought have long contended that humanity cannot be separated into individuals, but must be regarded as a linked whole, and that thought is now dominant in the minds of many, if not of most men. As a recent writer in Harper's Weekly expressed it:

Each looks about, knowing in his heart: "I cannot separate fate from my neighbors. If he is crippled, I am maimed; if poverty and ignorance blight him, the national economy is lacking; if he suffers from dirt and disease, the civic forces are at fault and my family endangered; if he sins, I suffer."

St. Catherine, of Siena, in the days long ago, spoke to her waiting people of just this dawning sense of much-needed sociability, saying:

It would, indeed, have been easy to have given to each man all that was necessary for his body and his soul. But I willed that they should need each other, and that they should become ministers and dispensers of my gifts. Whether a man will or not, I force him to exercise charity toward his neighbors. See, therefore, it is to increase charity that I have made my ministers and placed them in different states. There are many ways of living in my mansion, but loving is the only way I demand. For who loves his neighbor loves me and fulfills the law. And who possesses love renders to his neighbor all possible service. In this life where ye pass as strangers and as pilgrims I have bound you together by insoluble ties of charity. Each man is forcibly united to his kind. Should he wish to separate himself, yet he is held by necessity. For I have bound you by your works as well as by my love. I have not given to each what is necessary for his existence, so that man should lose the love of his brother; yet shall his actual needs enforce him. You are each bound to the other by the decrees
